

give the University the needed visibility and capacity building. Earlier on, the Director of the UNN Consult has briefed the team on the unimaginable business opportunities the Consultancy offers and promised to work out an acceptable business partnership with the group.

2. Partners with SealandSafety Ltd on Training and Capacity Building. The agreed areas on training will include, health and safety, scaffolding, onshore and offshore Rigging and Lifting Operations. This will definitely benefit our students especially people in Engineering, Geology, Environmental Sciences and the general public who have interest in working in the Oil and Gas sector.

The pictures are attached as soft copies to this email – uche.nwamarah@unn.edu.ng . Thank you for your anticipated cooperation.

Kind Regards

Prof. Obi. U. Njoku

Director
